

Your Perfect Fire Protection Solution

- Maintenance Free -** Wire MegaMesh is virtually maintenance free, no dust or dirt can build up on the surface
- ESFR -** Complies with FM Global specifications for ESFR sprinkler with open shelving
- NFPA13-** Wire MegaMesh can be treated as 'open rack' as defined in NFPA13 (open area greater than 70%)
- Flow Through -** With flow through shelving, in the case of fire, the sprinkler system can get water to all levels easier and more effectively than with solid shelving or pallets
- Reduce Risk -** Flow through shelving can reduce the risk of falling goods in the case of fire, as solid shelving or timber pallets may catch and spread the fire and/or collapse
- Faster-** MegaMesh decking can allow for faster sprinkler activation and penetration
- Insurance -** MegaMesh decking may help in meeting stringent insurance requirements

MegaMesh Main Advantages

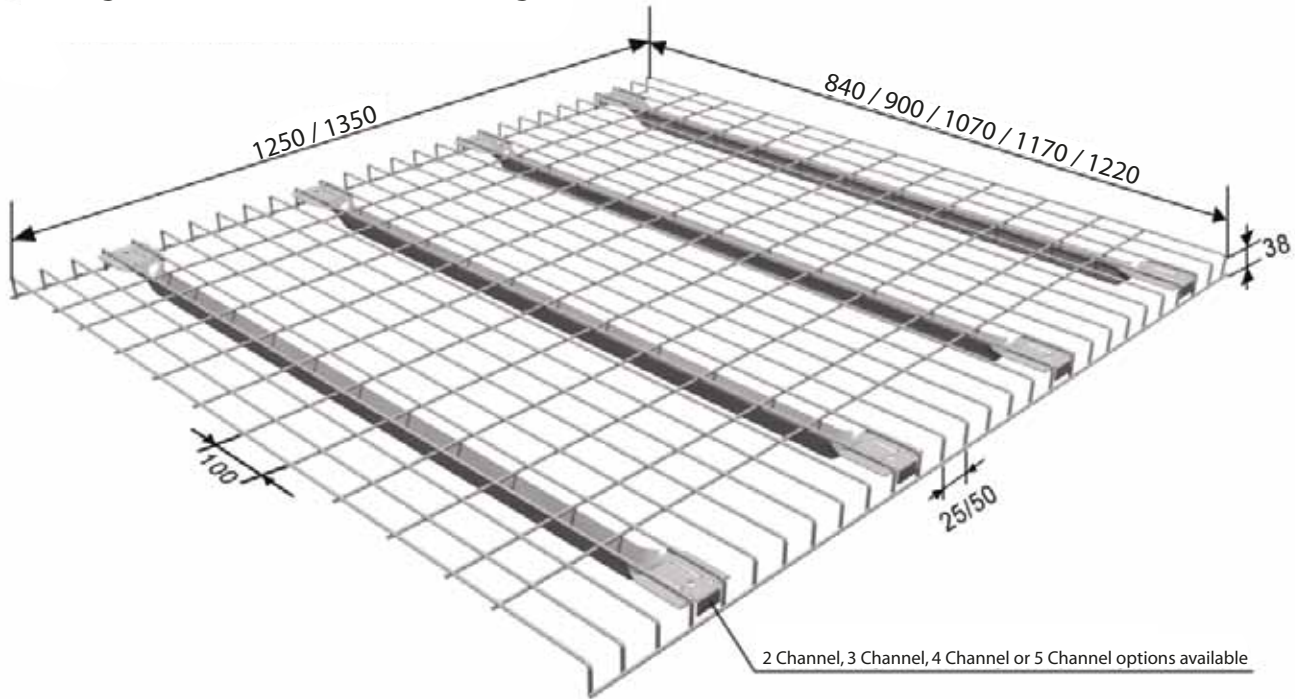

1. The unique “Proprietary punch” pattern developed for greater strength.
2. MegaMesh deck supports have strategically placed “Drill Holes” (located in the center of the contact lip) for a permanent fixing option so you can be sure that they will never budge in dynamic environments.
3. The MegaMesh “Center Lip”: ensuring that you have the highest amount of stability within your storage bay for a safer workplace.
